**Item 1.01 and 1.02 Conflict Minerals Disclosure and Report**

Natural Gas Services Group, Inc. rents and sells compressors used in the oil and natural gas industry. We are in the process of conducting an analysis of our supply chain to determine whether any “conflict minerals” i.e., tin, tungsten tantalum and/or gold may be contained in the components manufactured by third parties and used in our fabrication (assembly) of our compressor products and whether any such conflict minerals were derived from the Democratic Republic of the Congo or adjoining countries. In addition, most of our fabrication is performed by an unaffiliated third-party fabricator. Thus, we are reliant on receipt of reports and information from these third parties in connection with this report. Upon completion of our due diligence, we intend to complete the report to the extent necessary.

**SIGNATURES**

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.
